Rellen,

As people are contacting us communicating that they do not want to receive additional information from PCI, I am marking them do not mail, email, call. I wanted to verify how this gets flagged in your process. Will these people be returned to us as do not mail? If so, that might be problematic because it would impact the way we mail them in the future.

Also, I have been opting people out and want to see what verification process there is for tracking those individuals.
